

**PROCORE PEST CONTROL**  
**Multi-Family Unit**  
**Heat Treatment Preparation Checklist**

On the day of treatment, our technician(s) will arrive at approximately 8:30 to 9:30 am and the treatment will begin shortly thereafter. Treatment will continue until approximately 5:00 to 6:00 pm.

**\*\*\*\*\*IF this prep sheet is not completed, ALL implied warranties will be null and void\*\*\*\*\***

**PLEASE FOLLOW THE FOLLOWING INSTRUCTIONS**

- Turn the heat ON and all the way up to the highest setting prior to our arrival and as early as possible.
- **NO CLUTTER!!!! Clutter prevents heat from moving freely throughout the structure. Clutter will void the warranty!**
- DO NOT remove any infested materials from the infested room(s) or house including clothing OTHER than the freshly laundered clothing you will be wearing for the day.
- DO NOT leave piles of clothes or linens in garbage bags or on the floor. Clothing must remain loosely piled or hung so that the heat will be able to penetrate. Piles of clothes or linens will prevent heat from penetrating and VOID all warranties.
- Strip all beds of all linens. We recommend drying these items loosely for 20+ minutes to kill all bed bugs and eggs. These items can be bagged up and stored in the laundry room or designated place.
- Open all closets, dresser drawers and doors of all furniture such as nightstands and cabinets.
- Make sure all closets are not packed too tightly. Heated air needs to circulate freely.
- All equipment such as computers, TV's, DVD players and game systems **MUST** be unplugged from the wall outlets. Heat **WILL NOT** damage these items **BUT** no chances will be taken.
- All residents and pets including dogs, cats, fish, birds, lizards, gerbils, etc. **HAVE TO VACATE** the unit.
- Aerosol cans, compressed gasses, all flammable or combustible compounds including gasoline, propane, butane and cleaners, cigarette lighters, fluids, ammo and guns. These items **MUST** be placed in the bathroom for safety.
- Candles, lipstick, oil paintings, acrylics, loose pictures, crayons, wax figurines **MUST** be placed in the bathroom.
- Remote controls, audio and video tapes, CDs, DVDs, film and related chemicals. These items **MUST** be placed in the bathroom.
- Indoor plants including seeds and bulbs **NEED** to be outside. The extreme heat will cause them **to dry out and die.**
- Fruits, vegetables, Chocolate, candy, and medicine (liquid and pills) **NEED** to be in the refrigerator.

**If the technician has to complete the preparation, pictures will be taken of the needed work and up to \$200 can be charged for the prep work and must be paid before treatment.**

***Please contact your property manager IF you have any questions or trouble with this list.***
